

DISABILITY IN THE CHANNEL ISLANDS SURVEY 2018 NOW AVAILABLE TO COMPLETE ONLINE.

In advance of the UN's International Day of Persons with Disabilities Island Global Research is conducting a survey on issues related to disability.

Persons with disabilities include those who have long-term physical, mental, intellectual or sensory impairments which, in interaction with various barriers, may hinder their full participation in society on an equal basis with others.

We would like to hear from as many people as possible. There are some general questions for everyone to answer, as well as some specific questions for people who have a disability, or people who have a family member or close friend in the Channel Islands who has a disability.

The survey can be completed by anyone aged 16 or over, and should take around 10 minutes to complete. The survey will run until the 26 November 2018.

Those who wish to participate can access the survey using the link below:

<https://survey.islandglobalresearch.com/s3/Disability-Survey-2018>

Respondents who are willing to complete the questionnaire do so anonymously. They do not need to give their name, date of birth or any other information that would identify them. They are also able to skip questions that they do not want to answer. All answers given are treated with the utmost confidentiality.
